

Immunization Requirements

Kindergarten through Sixth Grade (2026-2027)

To attend kindergarten through sixth grade, a student must provide written proof of receiving the following immunizations:

- ♦ 5 doses of DTaP/DT
- ♦ 4 doses of Polio
- ♦ 2 doses of Measles, Mumps, Rubella (MMR)
- ♦ 3 doses of Hepatitis B
- ♦ 2 doses of Hepatitis A
- ♦ 2 doses of Varicella (chickenpox)

Recommended for children aged 5 years and older

(Not required for school entry in Utah)

- ♦ Influenza
- ♦ COVID-19

For students claiming a previous infection with Measles, Mumps, Rubella (MMR), Varicella (Chickenpox), or Hepatitis A, immunity documents must be provided to the school. These documents should include the results of serological/titer testing and a written statement signed by a healthcare provider confirming that, based on positive laboratory test results, the student does not need to receive the MMR, varicella, or hepatitis A vaccines.

For medical, religious, or personal exemptions, the legally responsible individual of the student must complete an online immunization education module at immunize.utah.gov or attend an in-person consultation at a local health department. A copy of the exemption form must be submitted to the school.

For medical exemptions, a completed vaccination exemption form, along with a written notice signed by a licensed healthcare provider, must be submitted to the school.

For questions regarding your child's immunization status, contact your child's healthcare provider, your local health department, or the **Utah Immunization Program at 801-538-9450.**
