We spent the hour discussing Land Trust Money.

The website is still currently down, and students did not take the end of the year RISE test last school year. Because of this, it is hard to review the data showing the students growth from last year. Mrs. Smith did provide a chart showing students' data from Acadiance testing this year, grades 1-3 for the beginning and middle of the year. We were also able to look at score for students 3-6 in their R.I. test this current year.
